South Africa	0.6	1.3	2.0	2.5

<sup>\*</sup> Weights in global GDP at market price, 2017

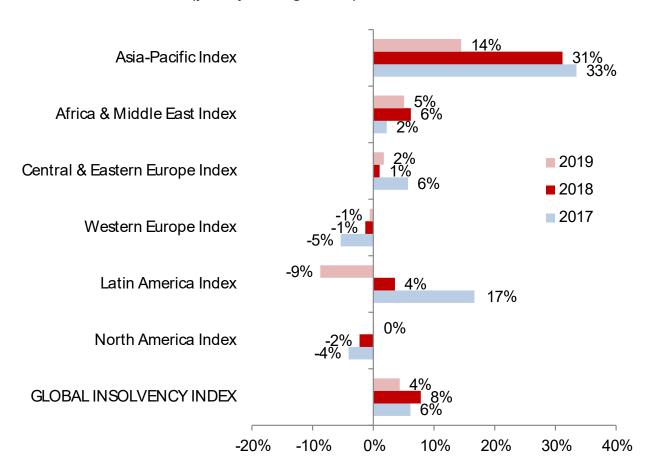

NB: The revisions refer to the changes in our forecasts since the last quarter Fiscal year for India

- 1. World GDP growth remains on a solid footing albeit being less synchronized
- 2. The markets are likely to increasingly sanction the weakest in the loop: Stress for currencies in the some of the vulnerable emerging markets: Turkey and Argentina
- 3. Brent oil prices at 72 USD/bbl in 2018 and 69 USD/bbl in 2019. Spot price mid-June 2018 at 75 USD/bbl
- 4. A temporary surge in **inflation** expected in Q3 18 on the back of higher oil prices and depreciating currencies
- 5. USD to further appreciate in the next 6 months (+4.5%). EUR/USD: 1.10 at end-2018; 1.17 at end-2019

### GLOBAL INSOLVENCIES DIVERGENCE

## EH Global and Regional Insolvency Indices (yearly change in %)

We expect our Global Insolvency Index to remain oriented on the upside for a second consecutive year in a row in 2018 (to +8% from +6% in 2017) and to keep on increasing in 2019 (+4%).

Yet beware of the divergence between regions.

## **GLOBAL INSOLVENCIES DIVERGENCE (2)**

#### Insolvency Heat Map 2018

Strongly deteriorating strictly more than +5%	Romania (+12%)	Poland (+10%)	Finland (+6%)	Slovakia (+80%) *     China (+50%)  Luxembourg (+12%)     Denmark (+11%)     Colombia (+8%) *     Morocco (+8%)     Chile (+7%)
Deteriorating or stable +0% to +5%	UK (+5%) Taiwan (+5%) New Zealand (+2%) Austria (+2%) Canada (0%) Japan (+0%) Russia (0%)	Sweden (+2%) Singapore (+0%) Estonia (0%)	Switzerland (+1%)	Turkey (+5%) Norway (+5%) Australia (+3%) Belgium (+3%) Spain (0%)
Improving -5% to -1%	South Africa (-1%) Latvia (-2%) US (-2%) Brazil (-3%) Germany (-4%) The Netherlands (-5%) South Korea (-5%) Hong-Kong (-5%)		Bulgaria (-5%)	
Strongly improving strictly more than -5%	Greece (-9%)	Czech Rep (-17%) *	Italy (-6%) France (-7%)	Hungary (-7%) Ireland (-10%) Portugal (-10%) Lithuania (-18%)
	Very low level (more than 10% below the 2003-2007 level)	Low level (between 0% and 10% <u>below</u> the 2003- 2007 level)	High level (between 1% and 10% <u>above</u> the 2003- 2007 level)	Very high level (more than 10% above the 2003-2007 level)

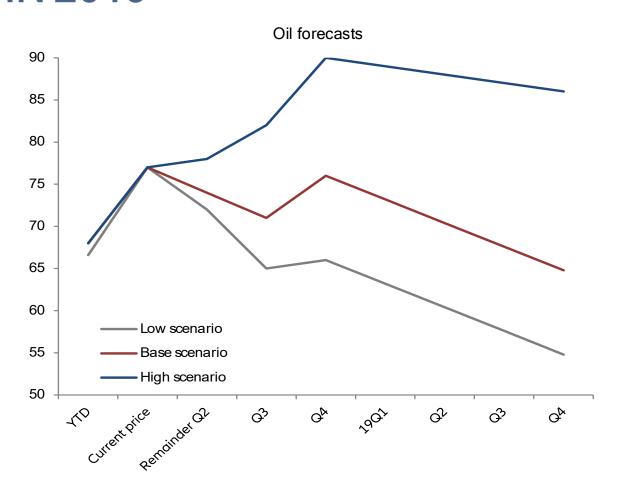

- Insolvencies to stabilize in Singapore
- In China, the surge in insolvencies is driven by the cleaning up of zombies companies

<sup>(\*)</sup> Historical data are not fully consistent because of changes in law or national figures Sources: National statistics. Euler Hermes. Allianz Research

## THREE SHOCKS TO CONSIDER FOR SINGAPORE COMPANIES

## EH

## SHOCK#1: OIL PRICES TO DECLINE TO 69 USD/BBL IN 2019

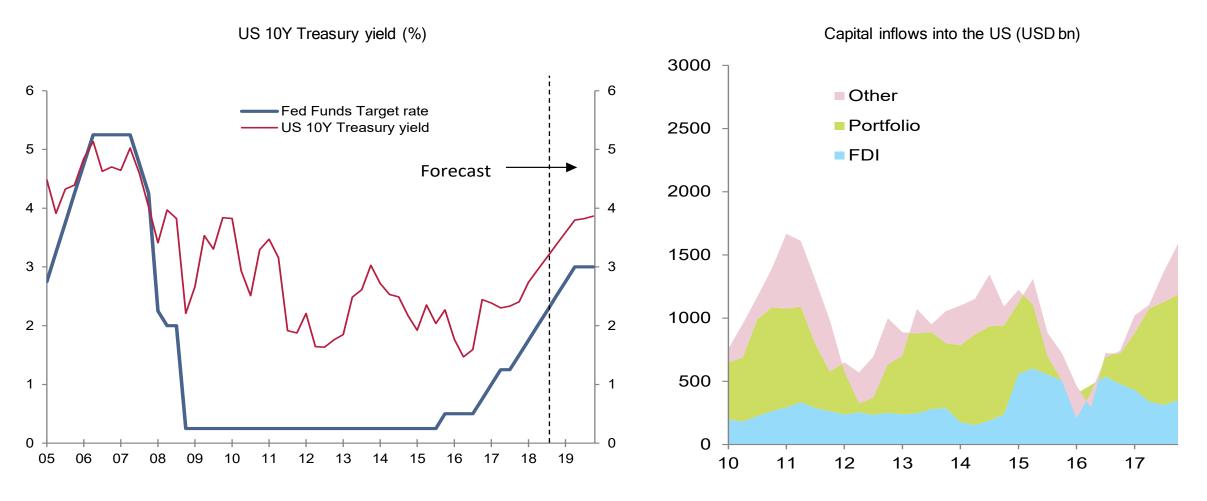

- We expect oil prices to be broadly stable until the end of 2018 and decline thereafter on the back of abundant supply absorbing net losses linked to Venezuela and Iran situation
- In that context, the upcoming surge of global inflation should be temporary as the contribution of energy prices is significant

Sources: IHS, Bloomberg. Allianz Research

### SHOCK#2A: US: FED GOES FASTER IN TIGHTENING

The red is expected to hike twice in ∠n to and 2019.

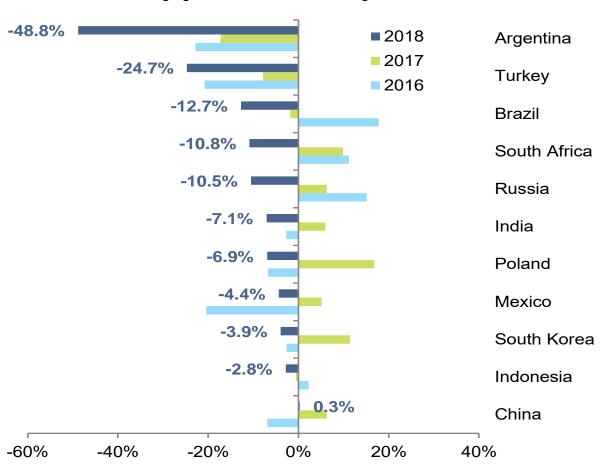

Capital flow back to the US.

## SHOCK#2B: MARKETS SANCTIONED EMERGING MARKETS, WHO'S NEXT

Emerging market currencies change in %

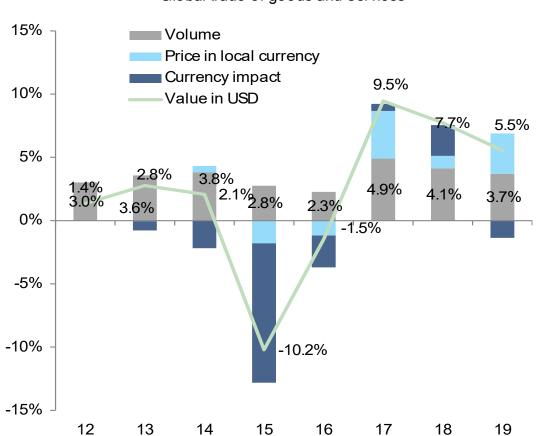

- Countries with wider current account deficits (Argentina and Turkey) have suffered the most.
- Second-round effects should trigger more depreciation in China, but in a benign way (-4%).
- USD is expected to appreciate by +4% against most currencies over the 6 coming months

## SHOCK#3A: GLOBAL TRADE: NO REGIME-CHANGE

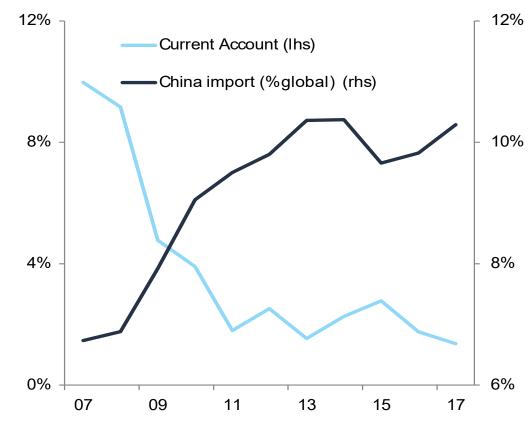

#### Global trade of goods and services

**DESPITE RISKS** 

Global trade is expected to decelerate to 4.1% in volume in 2018 and to 3.7% in 2019

#### China current account and China imports

China tends to absorb a growing share of world demand

## TREND#3B: PROTECTIONISM. BETWEEN TRADE GAMES AND TRADE FEUD

4.0%

Current US tariff 3.5%

Trade game (55%)

Negligible on global trade (>4% volume)
 US real GDP growth cut by -0.1pp; negligible impact on US inflation
 US current account deficit: -0.6pp to -3.0% of GDP

- Europe's ongoing recovery not impacted
  China remains on soft landing trajectory

Trade feud (40%)

- Global trade slows down (-2pp)

- US growth cut by -0.5pp
  US inflation durably up by +0.1 pp
  US CA deficit: -0.9pp to -3.3% of GDP(\*)
  US fiscal deficit: -1.6pp to -5.0% of GDP
- Europe growth cut by -0.6pp
- China growth cut by -0.3pp, CNY depreciation similar to 2015 (-10%)

Trade War (5%)

- Global trade contracts (-6pp from +4%)
- US growth cut by -1.7pp
- US inflation durably up by +0.4pp
  US CA deficit: +0.7pp to -1.7% of GDP (\*)
  US fiscal deficit: -4.6pp to -8.0% of GDP
  Europe growth cut by -1.9pp

- China growth cut by -1pp only on the back of stabilizing policies; CNY depreciation (-20%)
- EM broad recession

#### Milestone

USD50bn of Chinese imported products at 25% tariffs & 25% import tariffs on steel imported products & 10% import tariffs on aluminum imported products

#### Milestone

USD50bn of Chinese imported products at 25% 4.5% tariffs & USD200bn of Chinese imported products at +10% import tariffs USD200bn of US automotive 6.0% imports targeted by +25% import tariffs in addition to the USD50bn of Chinese imports and USD10bn of

#### Milestone:

steel and aluminum

USD500bn of Chinese products targeted by the US by +25% import tariffs & USD200bn of US automotive imports targeted by +25% import tariffs

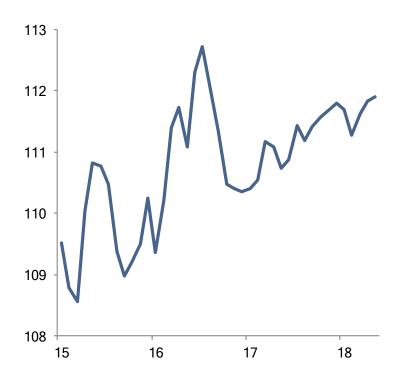

11.2%

## SINGAPORE: PROACTIVE POLICIES ARE THE FIRST LINE OF DEFENSE

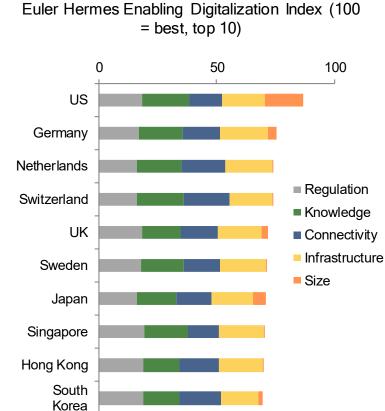

Nominal Effective Exchange Rate, Broad Indices (61 economies) (2010)

Defense #1: proactive macro-policies

Defense #2: the reform mindset

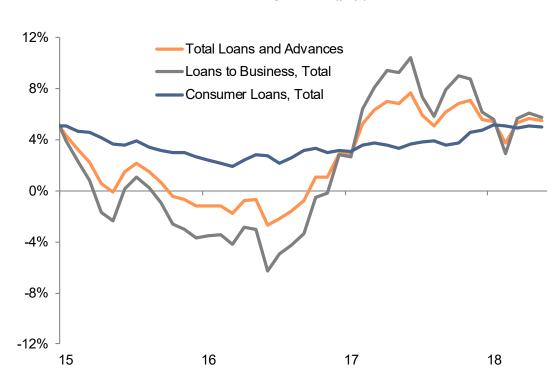

Defense #3: the innovation edge

© Copyright Allianz 4-Jul-18 Sources: IHS, Allianz Research Sources: Z/Yen 2018, Pixabay Sources: IHS, Allianz Research

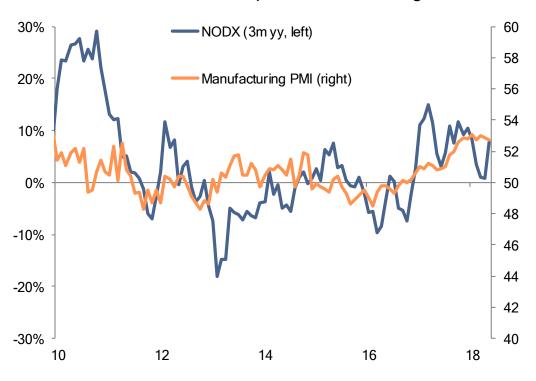

## SINGAPORE: ECONOMIC GROWTH TO RISE BY +3% IN 2018

#### Credit growth (y/y)

Demand for credit is growing at a decent pace. Yet the peak is behind.

#### Non Oil domestic exports Manufacturing PMI

The export engine is still running and business surveys suggest resilience

## WHERE TO GROW?

### **ASIA:** A SHELTER IN THE STORM?

#### Global GDP growth forecasts (%)

	_		
	2017e	2018f	2019f
Asia-Pacific	5.1	4.9	4.8
•			
China	6.9	6.6	6.3
Japan	1.6	1.2	1.0
India	6.7	7.3	7.3
Philippines	6.7	6.8	6.6
Vietnam	6.8	7.0	6.7
Indonesia	5.1	5.2	5.4
Malaysia	5.9	5.4	4.9
Thailand	3.9	3.8	3.4
South Korea	3.1	2.9	2.7
Singapore	3.6	3.0	2.7
Hong Kong	3.8	3.6	2.6
Taiwan	2.9	2.6	2.5
Australia	2.3	2.7	2.4
New Zealand	2.7	2.8	2.5

- Activity Economic growth is set to slow to +4.9% in 2018 (revised up from +4.8%) and +4.8% in 2019 as China's soft landing continues, Japan's fiscal stimulus effects fade away. Emerging ASEAN to maintain firm growth rate supported by strong domestic demand solid export growth
- Financing conditions Financing conditions tighten to reduce debt (China, e.g.), because of inflation (South Korea, Malaysia, Philippines, e.g.) and to reduce pressure on the currency (India, Indonesia).

#### **Economic patriotism**

 Anti-US campaign and boycott of US products (as done with South Korea), tighter regulation at the borders and different treatment for US corporates

#### **Diplomatic retaliations**

• Partnership against US strategy to increase (with Asian markets such as Japan and South Korea, with the EU)

#### Protectionism on services

• Measures to reduce trade deficit in services to be considered. First in line would be financial services.

## Mild RMB depreciation with RMB per USD kept below 6.9

- Currency depreciation to be used carefully to keep national purchasing power in check.
- Marginal depreciation expected with RMB/USD at 6.6 in H2 2018 (-4% from H1) and 6.7 in 2019

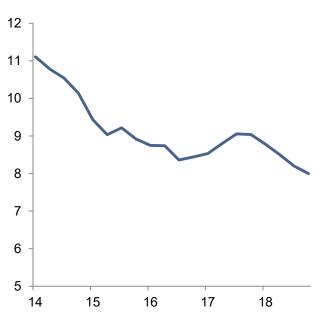

#### Threats on US Treasuries

Threats (some turbulences) but no significant sell off is expected

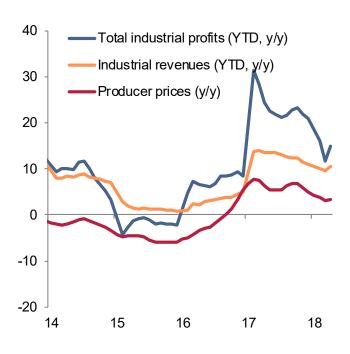

## CHINA: THE ECONOMY WOULD BE ABLE TO MAINTAIN A GROWTH AROUND +6.5%

Sources: IHS. Allianz Research

Households: solid income growth (8%+) will continue to support private consumption

Sources: IHS, Allianz Research

Corporates: improved corporate profitability will act as a buffer for debt repayments and tighter financing conditions

#### Policy tracker

		2017	2018	2019
Fiscal policy	Gen. Gov. Net lending (% GDP)	-3.9	-4.0	-4.2
r iscai policy	Benchmark lending rate (eop)	4.35	4.35	4.60
Monetary Policy	7 days - Reverse Repo (eop)	2.50	2.60	2.70
	M2 growth	9.7	8.7	8.7
	Reserve requirement ratios*	16.5	15.5	15.5
	RMB per USD (average)	6.8	6.6	6.7
	RMB per USD (eop)	6.5	6.7	6.7
Capital account	Inward	Modest	Significant	Significant
progress	Outward	Neutral	Modest	Modest

Policymakers to adopt a defensive strategy:

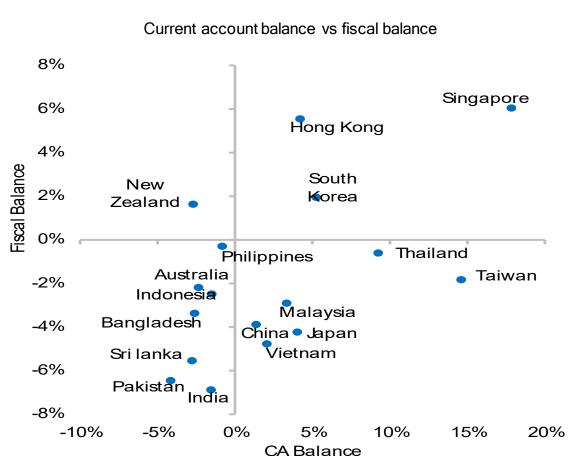

- Fiscal support to increase
- Central bank to keep liquidity in-check (RRR cut) but maintain deleveraging efforts through regulation
- Capital liberalization progress to be maintained but with further moves on inflows (financial opening)

<sup>\*</sup> For large banks Sources: IMF. Allianz Research

## ASIA: CURRENCY TURBULENCES BUT LIMITED IMPACT ON GROWTH

#### Monetary policy (end -year)

	17	18	19
Australia	1.50	1.75	2.00
China	4.35	4.35	4.60
India	6.00	6.50	6.75
Indonesia	4.25	5.50	5.50
Japan	-0.10	-0.10	0.10
South Korea	1.50	1.75	2.00
Malaysia	3.00	3.25	3.50
Philippines	3.00	3.50	3.75
Taiwan	1.375	1.375	1.500
Thailand	1.500	1.500	1.750

N.B. Fiscal balance refers to general government balance (IMF definition) Sources: IMF, Allianz Research

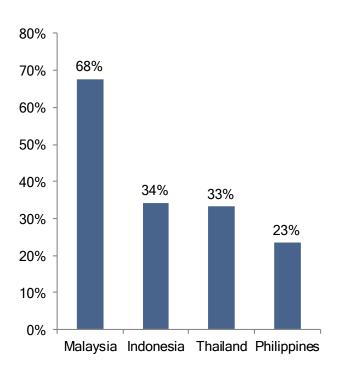

Sources: IHS, Allianz Research

Expect some turbulences on the currencies of markets with twin deficits. Yet, pre-emptive tightening should ease tensions going forward.

### MALAYSIA THREE CRITICAL VULNERABILITIES

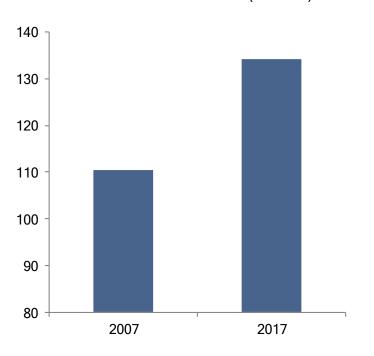

Sources: IHS, Datastream,. Allianz Research

Vulnerability #1: high external debt

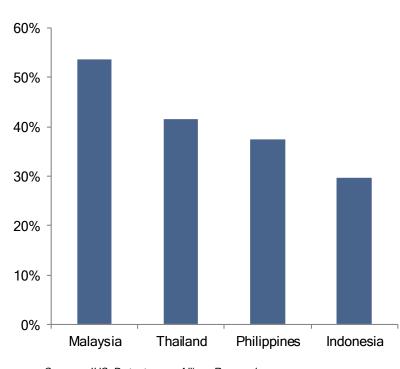

Private debt : Corporate and households' debt summed (% GDP)

Sources: BIS,. Allianz Research

Vulnerability #2: elevated private leverage

Public debt (% GDP, 2018 estimates)

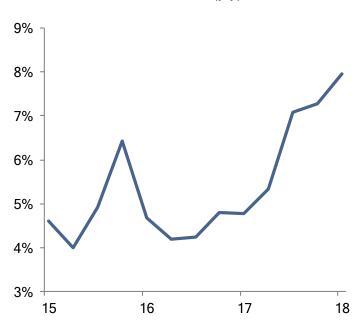

Sources: IHS, Datastream,. Allianz Research

Vulnerability #3: high public debt compared to regional peers

### INDONESIA IMPROVING LOWLY BUT SURELY

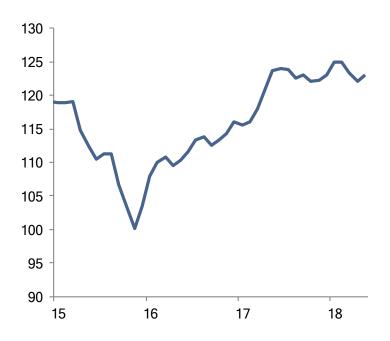

Sources: IHS. Datastream., Allianz Research

Investment to be the main growth driver supported by easier regulation for foreign investors and rising risk appetite towards emerging markets

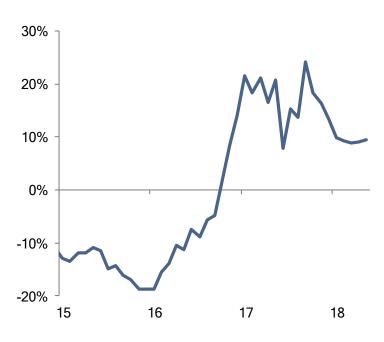

#### Consumer confidence (3 months moving average)

Sources: IHS. Datastream., Allianz Research

Private consumption to pick up speed driven by solid job market and high consumer confidence

#### USD denominated exports growth (3m y/y)

Sources: IHS, Datastream,. Allianz Research

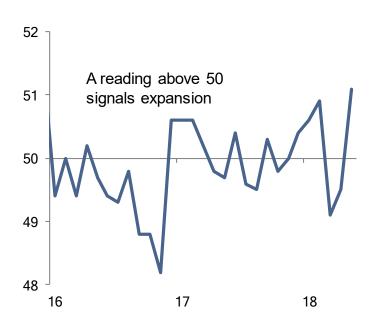

Exports to continue to expand but at a slower pace reflecting (i) fading base effect of commodity prices recovery, (ii) slower economic growth in China

© Copyright Allianz 4-Jul-18

### THAILAND A LIGHT AT THE END OF THE TUNNEL?

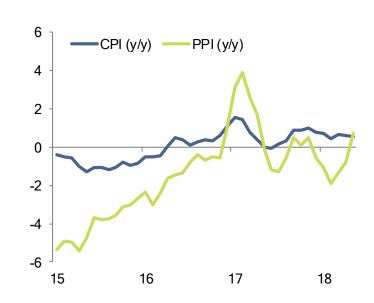

#### Manufacturing PMI

Sources: IHS, Datastream,. Allianz Research

Business sentiment if finally improving driven by rising exports

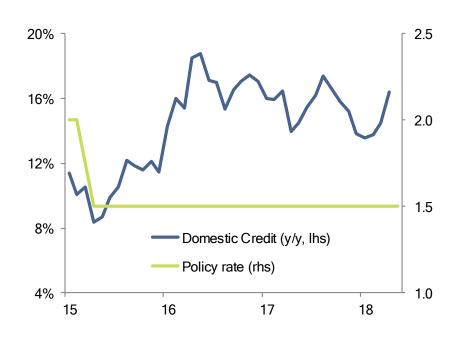

#### Consumer and producer prices

Sources: IHS, Datastream,. Allianz Research

Consumer prices are slowly getting traction but deflationary pressures in the manufacturing sector is still a problem

#### Credit conditions

Sources: IHS, Datastream,. Allianz Research

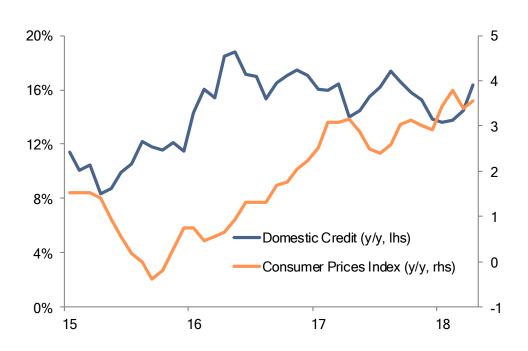

Demand for credit is finally picking up but pace is still relatively low

© Copyright Allianz 4-Jul-18

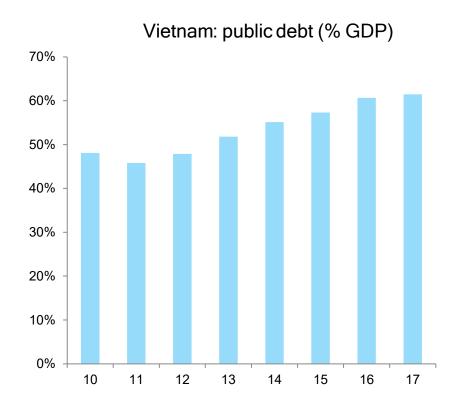

## PHILIPPINES AND VIETNAM: PRUDENT POLICIES WILL BE KEY

#### Philippines: credit growth and inflation

Sources: National statistics, Allianz Research

Philippines: rising inflationary pressures and fast credit growth call for prudence

Sources: IMF, Allianz Research

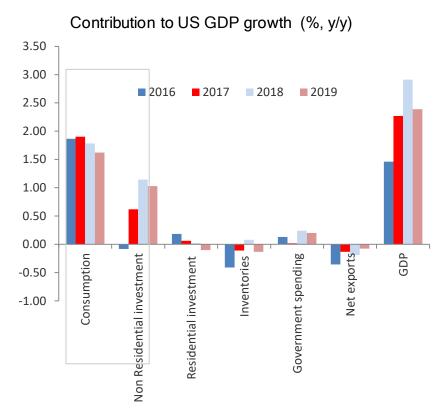

Vietnam: getting public debt under control will be pivotal

22

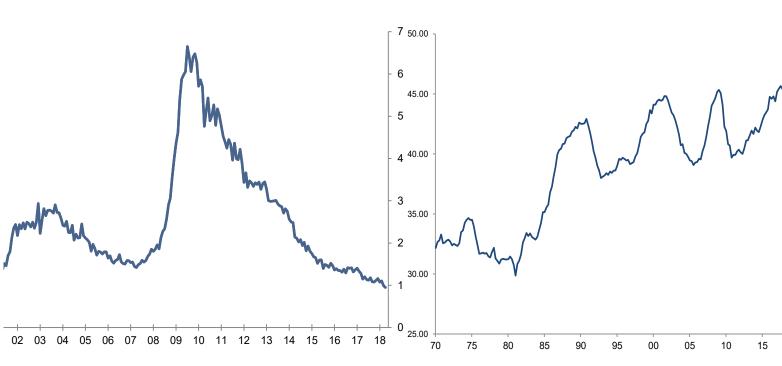

## US: CLOSER TO OVERHEATING DUE TO FISCAL STIMULUS

Sources: Euler Hermes, Allianz Research

Higher rates will weigh on consumption and residential investment at a 2-year horizon

Sources: Euler Hermes, Allianz Research

For the first time since 1970s the number of US job offers is above the number of unemployed people.

Sources: Euler Hermes, Allianz Research

US non-financial corporate sector is already stretched in terms of debt.

US corporate debt (as % of GDP)

## **EUROPE: STILL ENOUGH BUFFERS**

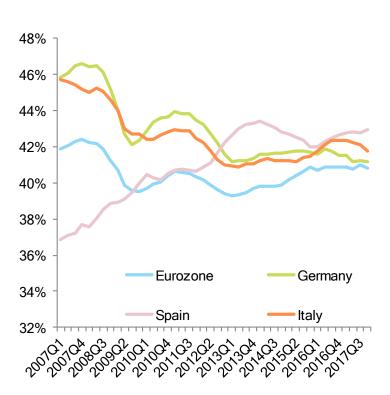

### Eurozone: consumer spending and disposable income

Source: IHS, Euler Hermes Allianz Research

## Higher purchasing power to support consumption

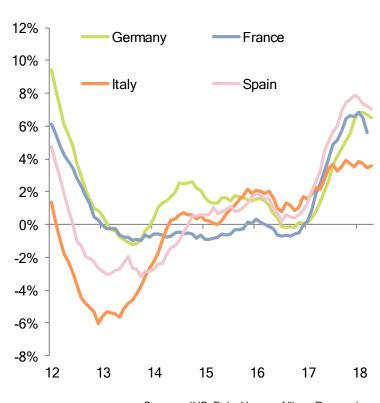

### Non-financial corporations margins, % of value added

Source: IHS, Euler Hermes Allianz Research

Margins remain at a relatively high level, but they are expected to have peaked at end-2017, notably in **Spain** and **Italy**.

### Manufacturing turnover growth, 12m/12m

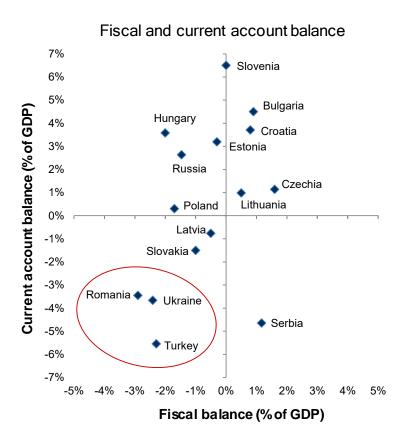

Sources: IHS, Euler Hermes Allianz Research

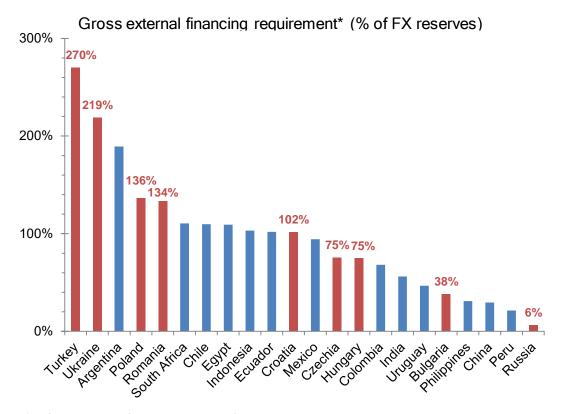

Turnover growth has cooled down but remains above pre-crisis average.

<sup>\*</sup> Defined as sum of current account deficit and external debt maturing within the next 12 months. Sources: National statistics, IMF, IHS Markit, Allianz Research

- Turkey, Ukraine and Romania have relatively large twin deficits and very high external financing requirements in relation to their FX reserves
- · Hungary has a current account surplus and acceptable fiscal deficit. Its external financing needs are also adequate
- Poland has external financing requirements in relation to its FX reserves but otherwise relatively solid macro fundamentals (e.g. twin surplus, low inflation)

## THANK YOU!
