

1st September 2018

Certification Services Circular

To all Certificate of Origin Customers

Dear Customer

Electronic Certificate of Origin via new Smart-eCO System

Many thanks for your company's valued support of the Chamber's Certification Services.

The Singapore International Chamber of Commerce has begun approving certificates of origin on a new electronic certificate (e-certificate) of origin system (Smart eco System) using blockchain technology since June 2018.

e-certificates of Origin using blockchain technology are secure because once approved the e-certificate of Origin cannot be changed (Blockchain Technology Certificate). The Smart eco System comes with the following additional security features:

1. Smart eCO verifier App for mobile devices
2. Secure QR Code
3. International Chamber of Commerce (ICC) Verification Website
– just key in the e-certificate number to verify its authenticity
4. Micro-print on each e-certificate of Origin which appears as a blurred line on photocopies.

With effect from 1st December 2018, certificates of origin issued by the Singapore International Chamber of Commerce will no longer bear any optical watermarking.

A specimen of the new e-certificate of Origin issued is shown overleaf.

Please note:

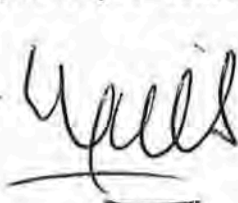

- All the stamps in Box 12 of the e-Certificate of Origin are digitalised
- Users can securely verify the authenticity of the CO by scanning the QR Code that is printed on the left
- The ICC quality logo confirming SICC's status as a Chamber of Commerce is positioned on the right

If you have any questions or concerns, please direct them to my colleague, Nisha Ibrahim at nisha@sicc.com.sg.

Nisha and I thank you for your continued support and send our very best regards

Yours faithfully

Victor Mills
